REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As to claim 1, wherein the number of data locations within a data message is adjustable and each of the data locations is associatable with one of the sub-components", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

As to claims 9 and 21 "adjusting the number of data locations of the data messages for those components that have at least two-sub-components" and "associating each of the data locations with a respective one of the subcomponents in one-to-one correspondence", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

As to claims 15 and 22, "automatically associating a data location with one of the subcomponents when the data message is automatically composed" and "wherein the number of the data locations within a data message is adjustable", in combination with the other claimed elements and features is not taught nor fairly suggested by the prior art of record.

2. Prior art of record

Azarya et al. discloses an openbus that controls automation networks. It teaches control of various machines via a communication network, Data is sent to the machines via communication path but the message of said data especially number data locations is not adjustable within the message. Packet or message length is not analogous to adjustable data location within the message

White III et al. and Smith et al. do not disclose the missing limitation in the Azarya et al. patent.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
